Filter Count Issue

When you are on all products page and jumps to the second page of all products, the "clear filter" button is displayed. It's Should displayed when any filter is applied.

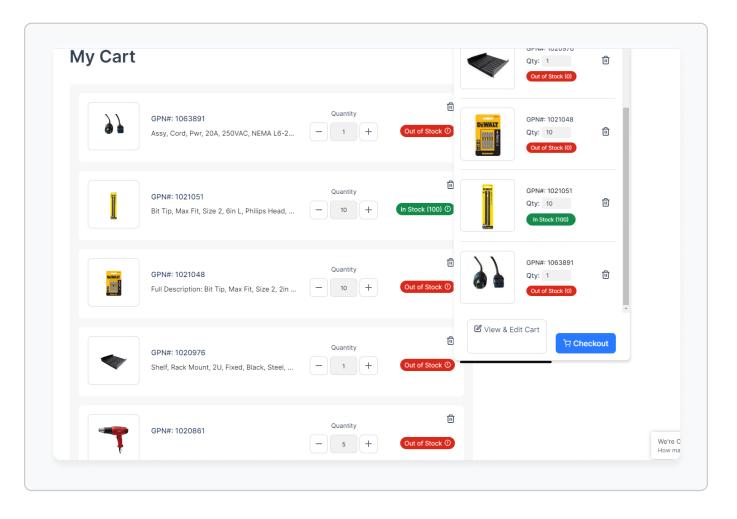

2 My Order - Export Issue

When you click the export button and the orders are not available, a blank file is downloaded the file should be not downloaded

3 My Cart Button Issue

On the cart page, when we click on "My Cart," the layout of the "View" and "Edit" buttons is not displayed properly.

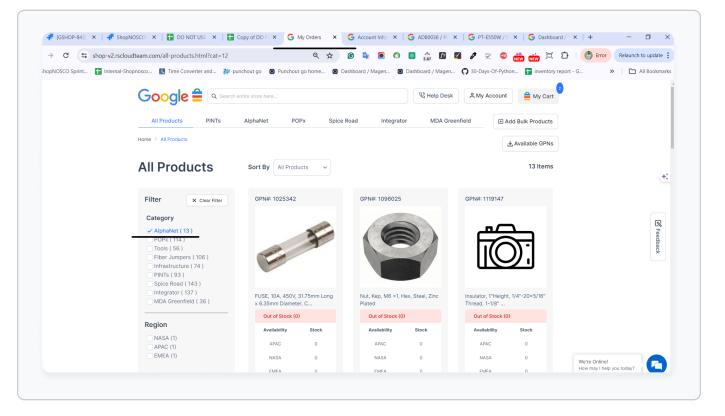

My Profile - Validation

Validation of error messages is not functioning properly. If you fill in the first name, the box color should change to normal, but it still displays as red.

Executive Summary

During the usability testing of the ShopNOSCO B2B platform, user opinions were mixed regarding the product's readiness and value in its current form. Four users responded very positively, expressing enthusiasm to start using the tool immediately and share it with their teams. However, one user felt that he would prefer to wait for further development and to see the direction in which the product evolves before fully committing to its use.

Most tasks were completed successfully by users without significant issues. However, the following areas proved to be the most challenging:

- My Profile Page
- Feedback Flow
- My Cart Page

70%

Participants loved the redesign of website

80%

Participants completed all the tasks. 90%

Had problem deleting items on cart page

After your order has been placed, and approved by an admin if it is worth more than \$1,000, you will receive a confirmed ETA for your order within 24 hours. Please note that, the ETA given will be based on the fact that the POP access ticket is created the same day an order is ready to ship. If the POP access ticket is not created on the same day an order is ready to ship, then we may not be able to meet the ETA given, as the order can not ship until the POP access ticket submission is complete. Rahi is not liable for late/missed ETA's, due to late POP access ticket submissions.

Order Status

Many users were confused in order status dropdown status like complete, closed, delivered.

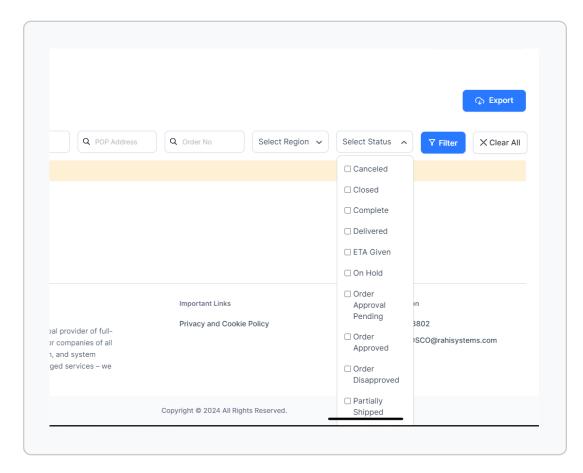

SEVERITY

Crucial X Negative

RECOMMENDATIONS

• Keep only single status which has the same meaning, e.g status like complete, closed, delivered.

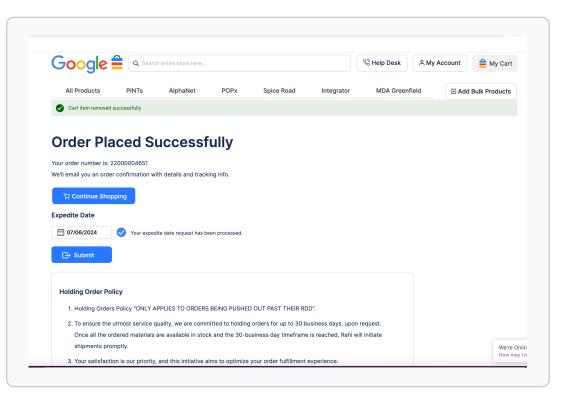

Status Message

When the expedite date is saved on the checkout page, a cart removal error is displayed.

RECOMMENDATIONS

• Correct status message should be displayed.

Accessibility

Many users were getting irritated with per page filter option as they were losing track of product they were looking/ filtered out.

RECOMMENDATIONS

• Remove the functionality.
